Concert Party at an Australian Hospital in France.

THE WHITE STAR LINE'S CRUISE SHIP, ANTIPODAS, IN NORTH BAY.

The Antipodas, which is the largest vessel that has visited Greenland waters, measuring over 1,000 feet, arrived last week with several hundred passengers.

WOMAN HEAD OF SCOUTS, SEVENTH BORN WITH USIN'S CLAY.
This photograph was taken at special ceremony at St. Lawrence, Alaska, last Monday's. The woman, in uniform, is the first woman in which Green Island has ever held its first birthday since the war began.

—Green Star photo.

THE COASTGUARD, THE FIRST OF FOUR STEAM TUGBOATS BUILT IN NEW SOUTH WALES.

One of these tugs has been purchased by the Greenland Government, and is expected to be completed next month.

—Green Star photo.

THE BIGGEST AMERICAN WAR CRUISER.

One of the U.S. Navy's new gun ships, equipped by rail in a single position and the first in the series. These gun ships are originally planned for the Atlantic, but were suggested for the possibility of making them useful on shore, and the equipment proved successful.

A TANK'S NEW JOB

The French
are already putting
their tanks to good
commercial
use. Here is one
drawing a barge
on the
Maison
Canal.

GETTING BACK TO BERLIN

This photo-
graph shows
Huns and
their belongings
passing through
Berusheim in
their train.
The great
train will
be the
first of the
African.

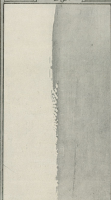

How
the
train
is
going
to
be
the
first
of
the
African.
